

JAYADEVA S K

Software Engineer | Python Developer | Data Analyst | AI & ML Engineer

Bengaluru, Karnataka | +91 7483087396 | jayadevask1@gmail.com | linkedin.com/in/jayadevask11 | github.com/jayadevask11

PROFESSIONAL SUMMARY

MCA (AI & ML) graduate with production experience across software development, backend engineering, machine learning, and data analytics. Built and shipped FastAPI backends, ML-powered classification services, React frontends, and Power BI/SQL dashboards during internships and academic projects. Comfortable across the stack, with Agile/Scrum experience at Testneo.ai. Seeking an entry-level Software Engineering, Backend Development, Data Analytics, or AI/ML role.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, Java (Basic), C

Backend & APIs: FastAPI, Flask, Node.js, REST APIs, PHP

Frontend: HTML, CSS, Bootstrap

Machine Learning: Scikit-learn, XGBoost, Pandas, NumPy, TF-IDF, Feature Engineering, Model Evaluation

Data Analytics & BI: Power BI, Excel, Data Cleaning, EDA, Dashboard Development, Data Visualization

Databases & Tools: MySQL, PostgreSQL, Git, GitHub, VS Code

Practices: Agile/Scrum, OOP, SDLC, Unit Testing, API Integration, Model Deployment

PROFESSIONAL EXPERIENCE

Machine Learning Engineer Intern — *TestNeo.ai (Jnanix NGPT Pvt. Ltd.)* Feb 2026 – May 2026

- Designed and shipped 3+ end-to-end classification services — from data pipeline to deployed API — improving diagnostic accuracy by ~25%.
- Developed and integrated production-ready REST APIs using FastAPI for seamless consumption by frontend teams.
- Owned end-to-end data preprocessing, feature engineering, and EDA on real-world datasets using Python, Pandas, and NumPy.
- Collaborated with cross-functional engineers in an Agile team, participating in sprint planning and iterating on feature and API design.

Web Development Intern — *Ekathva Innovations Pvt. Ltd.* 2024 (4 Weeks)

- Built a full-stack Hospital Management System end-to-end (PHP, MySQL, HTML/CSS), from schema design to UI.
- Managed code versioning with Git and contributed to sprint planning in an Agile team environment.

PROJECTS

Failure Root Cause Classification System · *Python, Scikit-learn, XGBoost, FastAPI, TF-IDF, PostgreSQL*

- Built an end-to-end system classifying test failures into 10 root-cause categories, cutting manual QA triage effort; shipped a production FastAPI service (batch/single-prediction + /metrics endpoints) backed by PostgreSQL.
- Engineered a TF-IDF + embeddings text-classification pipeline reaching 87% validation accuracy (5-fold CV); built a test suite with 85%+ coverage across 54 correctness properties and deployed on Render with a browser-extension integration.

Real-Time Traffic Prediction Application · *Python, React, Node.js, FastAPI, Scikit-learn*

- Built a real-time, multi-service traffic prediction system: FastAPI inference backend, Node.js orchestration, and a React dashboard visualizing live conditions and predicted congestion.
- Trained Scikit-learn forecasting models on historical and live traffic data for multi-route volume forecasting.

Sales Performance Dashboard · *Power BI, SQL, Excel*

- Designed an interactive dashboard to analyze sales performance, with KPIs, charts, and trend-analysis reports.
- Used SQL for data extraction and Power BI for visualization and business-insight reporting.

Hospital Management Website · *HTML, PHP, JavaScript, MySQL*

- Designed a full-stack healthcare platform with secure, role-based access for administrators, doctors, and staff.
- Built a normalized, query-optimized MySQL schema and PHP/JavaScript modules for registration, records, and scheduling.

EDUCATION

Master of Computer Applications (MCA) — Artificial Intelligence, Machine Learning & Data Science 2024 – 2026

CGPA: 9.1 / 10

Bachelor of Computer Applications (BCA)

2021 - 2024

CGPA: 8.62 / 10

CERTIFICATIONS

Retrieval-Augmented Generation (RAG) — Simplilearn, 2026 | Python Programming Language — Infosys Springboard, 2025 | SQL & Power BI — Cisco Certified Coursework, 2026 | Web Development Bootcamp — Ekathva Innovations, 2024 | AI & Robotics (2-Week Internship) — Acutro Technologies, 2025
